10/10 would recommend	Rachel is great	Theatre is amazing	Great professor	Can't wait to work with her in Arcadia	She's amazing	
Classes require students to participate during class time and are given a participation grade for each class.	I have never participated in an acting class before, but this professor made material interesting easy to understand.	The professor always offered office hours and help if students needed it.	The professor provided a moderately challenging grading system.	The quality of the course was good.	The professor was an effective instructor.	
I do participate a decent amount	In a theatre	Welcoming teacher		Good course		
I enjoyed in participating	Instructor increased my understanding of the subject	Good	Good	8/10	9/10	No
I enjoyed participating in opening exercises and participating in learning activities.	Casual, yet fascinating, thought provoking, and artistically challenging	She was very good and effective in keeping the class under control	She gave excellent feedback each week that helped me improve on every assignment.	Superb	100%	
I participated a fair amount given the opportunity	Yes	Respectful and stern. Keeps the class moving forward and nips distractions in the butt quickly	I was evaluated fairly and conscientiously.	Solid 8/10 class	She is very effective and enforces topics strongly	
I participated a lot	It was lit	We bonded well	Really benefited from her comments	Fun when I actually show up	She made the class fun and it would definitely be worse with a different instructor	
I participated because we got graded on it.	Yes very thought provoking!! Challenged us in just the right amount	She was very clear and communicated very well! She was very respectful of questions and comments	Responded in timely manner with great feedback to help us!!	Great quality!	Learned a lot about theatre in the class! Would recommend to anyone unsure about theatre it's a great intro to it!!	The final is kinda obnoxious, having to memorize a 10 minute play is a lot for a 100 level class. Other than that it's great

I participated the best I could every day	The instructor had a great classroom environment and it was an adventure everyday	She was always nice, respectful and understanding she was great	She got back to us all the time it was nice	The quality of the course was great it was a class you learn by participating which was new and fun	She was awesome to be short and sweet	She was always nice, treated us with respect like no other teacher to be honest, we were treated as adults, as equal other than other professors who show their authority day in and day out. I think that's the real reason for liking this course, the instructor was awesome and it makes us want to learn and listen to them
i was always trying to participate and answer questions as well as help my class mates	it was always layed back and relaxing	she was always fun to be around but when she had to be sturn she was not afraid to. which i enjoy	she was always trying to give feedback as quickly as she could which i enjoyed greatly.	the course was fun and i did learn parts of acting that i never knew before this class	i enjoyed her, she was fun and made learning enjoyable	none
This course definitely got me to step out of my comfort zone and discover new acting techniques. For example, my high school drama teacher always told us how we needed to breathe with our diaphragm, but he never explained how to, and I was so excited when she taught us how to do it.	I was definitely challenged by the material, more so artistically because there were times where we had to come up with scene ideas and improvise and it was hard. My understanding of the subject has definitely increased.	The instructor clearly communicated what she expected from students and she respected each student and treated them fairly. She was also friendly and understood the needs of students when they were having a problem.	She gave constructive criticism on each assignment and set high standards for the work her students turned in.	I thoroughly enjoyed participating in this class.	I learned a lot from her and would definitely take another course with her.

Contributed to every class discussion	Instructor challenged everyone intellectually, while making sure that every student had a firm understanding of the subject matter	Instructor was both clear and effective in communicating with students, holding frequent office hours and answering questions both in class and during office hours	Instructor gave clear and helpful feedback on every assignment, explaining where there was room for improvement and which parts of the assignment were well put together	10/10	10/10, instructor is clearly very well informed	No
I participated a lot. The group discussion were very enlightening. I often looked forward to going class just for those discussions.	The environment was fantastic. The students were intellectually challenged but we were still able to have fun. We learned so much about the theatre world and we learned how to analyze plays and other works deeply.	The instructor was awesome. She answered questions completely and clearly. She also did her best to make the subject easier to follow and understand.	Rachel gave very constructive advice when returning any projects. She made sure to comment on every project/paper that was handed in and she gave critical advice in order to make the paper better	The course was fun. Although I would defiantly consider this course to be writing intensive.	This course was very interesting and I learned a lot about litature in the theatre.	She was amazing and understanding when a student had issues that caused conflict. She went out of her way to make sure the students excelled.
I participated everytime I was in class. Professor Wolfe encouraged students to sit in a circle and discuss readings that were assigned. This was a practice to better understand the readings, the students, the teacher herself, and all opinions of the students and teacher. I gained personal realtionships with my peers and teacher which I believe to be valuable and made us a stronger class.	I loved the environment of the classroom, however I do beleive that because Professor Wolfe likes discussion circles, I believe she needs a room that has a circle table rather than the classic desks. The material of the class was interesting and continued to keep my interest all semester long. It was challenging in ways to understand how to write papers properly, but she was always happy to help me and gave me the best feedback on my work. Even if all of the work was wrong she always taught me how to improve.	Professor Wolfe was one to make us talk and communicate amougst eachother. In order to do that, she communicated effectivly to us, which made us wanting to engage. We learned better this way. Questions, comments, and concerns were always discussed before and during the class, because she would go over "house keeping" of the class. See where people needed help or just had a few questions. Everyone respected eachother, were are basically a strong working enviroment with a good leader running the room.	Professor Wolfe did have some assigments tha there challenging, but I always had the help from her and she was eager to help me as well. I can't tell you how many times we have spent in her office just going back and forth with eachother about propr methods and the best ways to tackle papers and organzie thoughts correctly. Standards were high and achievable. She gave clear instructions on how to get 100% grades and always gave the best feedback on work. Compared to my other teachers I had this semester, Professor Wolfe gave the best feedback all semester long.	The quality of this course studied all parts of being a college student, practice reading skills, writting skills, and communication skills. Learning how to communicate effectivly is something we struggle with today on a daily basis. This was a literature class, but I gained more than learning about theater and the meaning of plays. Its the study of how people learned throughout time. I believe that everyone, or any major should join this class.	Professor Wolfe has 100% effectivness on the class. She is an absoulte delight and I am thankful I got to have her as a teacher this semester. She is engaging, interesting, intellectual, and hilarious. Anyone would be lucky to have her as a teacher, friend, co worker. I geniuley think she's an amazing person.	I put "strongly agree" on everything up top because I believe Professor Wolfe deserves it. She was amazing to have and Utical College is lucky to have a teacher like her here. Her classes are definetly worth taking, for anyone in a communication, theater, or english feild. I wish her the very best and all the happiness in the world.

I think I participated when needed, like in reading response days, especially when I enjoyed a play we had read for that day. It was hard to participate if you didn't like the show or didn't understand it. I was enthusiastic when reading guidelines for specific handouts, and I believe everyone enjoyed it.	The classes were extremely thought provoking and opened my eyes to a lot of things. I enjoyed this class immensely because I got to read more plays and understand what they were about and how each one was for a genre and I didn't know we had specific genres for plays.	Always emailed back at a timely manner, and was always willing to meet you outside of class to talk about assignments which helped immensely.	She is very detailed when giving back specific and more important documents, and it helped me understand what I did wrong, what to do better on, and what I did good at, which was nice.	1-10, an 11	Absolutely went above and beyond to make sure we learned all about the meaningful subjects for theatre literature.

I participated every day in this class.	The learning environment was fun. At first it was a little scary though.	She interacts with students very well. She is friendly.	She responds good.	The course load is kind of a lot for a required class like this. I was not expecting this to be a very serious acting class where you need to do parts of plays.	She is a very good instructor.	NO

				A+++++ amazing class	A+++++ rachel is a fabulous professor and person	
		Very interactive with the students. Is willing to have in class discussions on the material and assignments.				I was not interested in the class but it does not have anything to do with the instructor. She is a good professor, nice and lenient.
	I feel that I was pushed to achieve a better understanding of what dramaturgy is and why it is valuable to a production	I believe Dr Wolfe handled questions well in situations where many professors would have been condescending towards the student she was very accepting		I enjoyed this course a lot it was a breath of fresh air compared to my other courses.	Dr Wolfe is very informative and receiving as an instructor. She distributes knowledge very well and is easy to learn from.	Dr Wolfe reminds me of Marijean Levering. Smart, witty, and accepting of all her students and I very much enjoyed learning from her.

I contributed to class discussions with my own thoughts and understanding. I inquired about items lectured about that I did not know about.	The learning environment allowed for all students to think outside of their normal academic box and to look at things with a critical eye. The understanding of the subject has increased and it has provided me with knowledge that will allow for further development.	All questions and comments were welcomed, respected and given a clear answer that would serve the individual as well as the rest of the class.	All feedback has been extremely useful and beneficial to my progress throughout the course.	I think the course content is one of value to the college.	I think that this instructor has a passion and professionalism that compliment each other beautifully.
